

Petition to all states: Join the Treaty on the Prohibition of Nuclear Weapons as soon as possible

What is Mayors for Peace?

In August 1945, two single atomic bombs dropped on the cities of Hiroshima and Nagasaki instantly reduced them to rubble. Combined, they took more than 210,000 precious lives by the end of the year. The ardent will of the *hibakusha*—the people who survived this horror—is summed up in their message: “No one else should ever suffer as we have.” To spread this will throughout the world and to ensure their message will be passed on to future generations, Hiroshima and Nagasaki remain steadfast in their assertion that nuclear weapons are inhumane, and ceaselessly call for their abolition.

Mayors for Peace was founded in June 1982, following a proposal by the Mayor of Hiroshima at the time, so that cities around the world could unite across national borders in solidarity to raise global public awareness of the importance of nuclear weapons abolition. As of January 1, 2022, our membership stands at 8,063 cities in 166 countries and regions. Collaborating with our member cities, their citizens, and other NGOs, we promote various initiatives aimed at the abolition of nuclear weapons.

Promoting the Treaty on the Prohibition of Nuclear Weapons

In July 2017, the Treaty on the Prohibition of Nuclear Weapons was adopted at the UN. This was made possible by the heartfelt appeal of the *hibakusha* and many other like-minded people for the abolition of nuclear weapons. About three years after its adoption, the treaty entered into force on January 22, 2021.

However, in order to realize a world without nuclear weapons, it is essential for the treaty to become a fully effective legal instrument. For this we need the nuclear-armed states and their allies to take part in discussions, attend meetings of States Parties and sign the treaty, and an overall increased number of states parties to the treaty.

Through this petition drive, we intend to spread among the people of the world the belief that nuclear weapons are an absolute evil to be eradicated from the world. Through this, we will create pressure for policy change and for all states to join the treaty as soon as possible.

As of January 1, 2022, approximately 3.14 million signatures have been collected through this petition drive and the previous campaign Mayors for Peace launched in December 2010, which called for the start of negotiations on a nuclear weapons convention.
