February 2019

Dear Fellow Mayor:

I trust this letter finds you well.

In August 1945, two single atomic bombs instantly reduced the cities of Hiroshima and Nagasaki to rubble, taking tens of thousands of precious lives. Even today, many of our citizens still struggle with the aftereffects of radiation. The pain of our people, who lost family, friends, and their entire community, is beyond my ability to describe.

With our *hibakusha* aging, we are determined to have their experiences and strong desire for peace absorbed and wholeheartedly accepted by future generations, and to have those commitments spread throughout the world. I am convinced that disseminating their message will eventually lead to the realization of their most cherished wish, the abolition of nuclear weapons.

To realize this goal, Hiroshima and Nagasaki established Mayors for Peace, and, in conjunction with partner cities around the world, has developed the *2020 Vision Campaign*, calling for the total abolition of nuclear weapons by 2020. We need to achieve our goal as soon as possible so that as many of our aging *hibakusha* as possible can enter with us into that nuclear-weapon-free world. The fact that Mayors for Peace has grown to 7,709 member cities from 163 countries and regions is clear evidence that people around the world wish to be liberated from the nuclear threat.

In drawing up the Mayors for Peace Action Plan (2017-2020), we have set two main objectives that we hope will lead us to our ultimate goal of lasting world peace: “Realization of a world without nuclear weapons” and “Realization of safe and resilient cities.” We are working first and foremost to abolish nuclear weapons— to protect people from mass destruction, and also working hard to equip cities with higher resilience to make them capable to address various issues of their own, such as sustainable development, the refugee crisis, or countering terrorism.

Mayors for Peace is a non-partisan international network of municipalities, registered at the UN with ECOSOC. The rapidly growing number of Mayors for Peace members is a powerful force generating real momentum toward peace and the abolition of nuclear weapons. To bequeath to our children a cleaner, safer, more peaceful and sustainable world, I humbly ask that you join our effort toward genuine and lasting world peace.

Sincerely yours,

MATSUI Kazumi
Mayor of Hiroshima
President of Mayors for Peace

Mayors for Peace

1. Outline

In August 1945, single atomic bombs dropped on the cities of Hiroshima and Nagasaki instantly reduced them to rubble, taking more than 210,000 precious lives. With more than 70 years since the bombings, many survivors (hibakusha) still suffer from the physical and emotional aftereffects of radiation. To spread throughout the world the hibakusha's ardent wish symbolized in the message that "no one should ever suffer as we have", and to ensure it is passed on to future generations, Hiroshima and Nagasaki remain steadfast in our assertion to the world that nuclear weapons are inhumane and continue to call for their abolition.

On June 24, 1982, at the 2nd UN Special Session on Disarmament held at the UN Headquarters in New York, then Mayor Takeshi Araki of Hiroshima called for cities throughout the world to transcend national borders and join in solidarity to work together to press for nuclear abolition. Subsequently, the Cities of Hiroshima and Nagasaki established "The World Conference of Mayors for Peace through Inter-city Solidarity" (now, Mayors for Peace), composed of mayors around the world who formally expressed support for this call. In 1991, the organization was registered as a NGO in Special Consultative Status with the UN Economic and Social Council (ECOSOC).

*On August 5, 2001, the organization changed its name from "The World Conference of Mayors for Peace through Inter-city Solidarity" to "Mayors for Peace".

2. Mission

The purposes of the "Mayors for Peace" are to contribute to the attainment of lasting world peace by arousing concern among citizens of the world for the total abolition of nuclear weapons through close solidarity among member cities as well as by striving to solve vital problems for the human race such as starvation and poverty, the plight of refugees, human rights abuses, and environmental degradation.

2) Executive Conference

Mayors for Peace holds an Executive Conference generally once every two years in one of the executive cities, where executives discuss future initiatives and plans for the next General Conference.

6. 2020 Vision (An Emergency Campaign to Ban Nuclear Weapons)

1) Outline

With the hope of realizing a world free of nuclear weapons while hibakusha are still alive, in October 2003, Mayors for Peace developed the 2020 Vision (Emergency Campaign to Ban Nuclear Weapons), which is a set of concrete action guidelines aiming for the abolition of nuclear weapons by 2020. Based on this vision, Mayors for Peace is globally promoting various initiatives aimed at the abolition of nuclear weapons, forging links with member cities, citizens, NGOs and other organizations around the world.

The EU Parliament, the U.S. Conference of Mayors (USCM), the International Physicians for the Prevention of Nuclear War (IPPNW), United Cities and Local Governments (UCLG), the Japan Association of City Mayors, and the National Council of Japan Nuclear-Free Local Authorities have expressed their support for the 2020 Vision. The UN Secretary-General António Guterres has issued a message which states that the total elimination of nuclear weapons remains the highest disarmament priority of the UN and that he will work with Hiroshima and Nagasaki to that end.

2) Projects

Aiming toward the target year of 2020, Mayors for Peace adopted the “Mayors for Peace Action Plan (2017-2020)” at the 9th General Conference held in Nagasaki in August 2017, which set two main objectives that would lead us to our ultimate goal, that of lasting world peace: “Realization of a world without nuclear weapons” and “Realization of safe and resilient cities”. Based on this Action Plan, Mayors for Peace is promoting various projects.
