February 2012

Dear Fellow Mayor,

I trust this letter finds you well.

In August 1945, a single atomic bomb instantly reduced Hiroshima and Nagasaki to rubble, taking tens of thousands of precious lives. Even today, many of our citizens still struggle with radiation aftereffects. The pain of our people, who lost family, friends, and their entire community, is beyond my ability to describe.

With our *hibakusha* aging, we are determined to have their experiences and strong desire for peace absorbed and wholeheartedly accepted by future generations and to have those commitments spread throughout the world. I am convinced that disseminating their message will eventually lead to the realization of their most cherished wish, the abolition of nuclear weapons.

To realize this goal, Hiroshima and Nagasaki established Mayors for Peace, and, in conjunction with partner cities around the world, has developed the *2020 Vision Campaign*, calling for the total abolition of nuclear weapons by 2020. After the bombing, it was said that nothing would grow for 75 years, and 2020 is 75 years after the atomic bombing. In addition, we need to achieve our goal as soon as possible so that as many of our aging *hibakusha* as possible can enter with us into that nuclear-weapon-free world. The fact that Mayors for Peace has grown to more than 5,000 member cities is clear evidence that people around the world wish to be liberated from the nuclear threat.

To strengthen global momentum toward the total abolition of nuclear weapons, we believe it is important for as many people as possible, especially policymakers, to come to encounter these A-bombed cities and learn the horror of nuclear weapons and the permanent human damage they inflict. In this way, we will all come to understand and accept the *hibakusha's* wish.

I hope that you share our feelings and humbly ask that you support our campaign for the abolition of nuclear weapons by 2020. Mayors for Peace is a nonpartisan international network of municipalities, registered at the UN with ECOSOC. We ask every mayor or head of municipality to join our effort to protect future generations.

The rapidly growing number of Mayors for Peace is a powerful force generating real momentum toward peace and the abolition of nuclear weapons. To bequeath to our children a cleaner, safer, more peaceful and sustainable world, I humbly ask that you join our effort toward genuine and lasting world peace.

Sincerely yours,

MATSUI Kazumi
Mayor of Hiroshima

The City of Hiroshima

Mayors for Peace

1 Outline

In August 1945, single atomic bombs dropped on the cities of Hiroshima and Nagasaki instantaneously reduced them to rubble, taking vast numbers of precious lives. To ensure that the atomic tragedy is never repeated anywhere on earth, Hiroshima and Nagasaki have consistently sought to persuade the world that nuclear weapons are inhumane and have continually called for their total abolition.

On June 24 1982, at the 2nd Special Session on Disarmament held at United Nations Headquarters in New York, the mayor of Hiroshima announced the Program to Promote the Solidarity of Cities toward the Total Abolition of Nuclear Weapons, a plan to build transnational solidarity among cities to facilitate collective efforts toward the elimination of nuclear weapons. The mayors of Hiroshima and Nagasaki issued a joint call to cities everywhere to support this program.

Mayors for Peace is a conference of cities that have expressed their support for the program described above. In March 1990, we were registered as an NGO with the United Nations Department of Public Information; Category II status (now called “NGO in Special Consultative Status”) with the United Nations Economic and Social Council was granted in May 1991.

The 2020 Vision

(An Emergency Campaign to Ban Nuclear Weapons)

1 2020 Vision (established in November 2004, revised in November 2011)

Mayors for Peace launched an “Emergency Campaign to Ban Nuclear Weapons” to raise public demand for the abolition of nuclear weapons and promote actions to convey that demand to each nation state. That campaign set forth our “2020 Vision,” a program to eliminate all nuclear weapons by the year 2020. Based on this vision, we will continue to work with cities, citizens, NGOs and other organizations around the world to develop initiatives that promote the abolition of nuclear weapons,

Objectives

1) Immediately de-alert all nuclear weapons

Even today, thousands of nuclear weapons around the world stand ready to launch on warning. This level of alert is madness, and stepping down is the quickest, easiest way to prevent an accidental nuclear holocaust.

2) Immediately start substantive negotiations toward a universal nuclear weapons convention

After repeated promises at NPT Review Conferences and other occasions by the nuclear-weapon states to eliminate their nuclear arsenals, we call on national governments to start substantive negotiations now to achieve a nuclear weapons convention.

3) Conclusion of a nuclear weapons convention by 2015

We call on national governments and other institutions to work toward conclusion of a nuclear weapons convention by 2015 that comprehensively bans manufacture, possession, and use of nuclear weapons.

4) Physical destruction of all nuclear weapons by 2020

The weapons can be destroyed. Fissile materials can be rendered unusable. Strict international control is technically feasible. A nuclear-weapon-free world is possible.

2 Mayor Activities

- 1) Develop a global grassroots petition drive conducted by all member cities calling for negotiations on a nuclear weapons convention, and submit those petitions to the most appropriate authorities.
- 2) Instill a sense of urgency and stimulate momentum toward convening a high-level meeting of governments and experts in Hiroshima concurrent with the 8th General Conference of Mayors for Peace in August 2013.
- 3) Commemorate the 5000-city milestone with a new poster exhibit to directly inform millions of citizens on the impact of nuclear attack on a city; the impact of nuclear war on catastrophic climate change resulting in global famine; the diversion of economic and human resources from urban, human needs to nuclear weapons and related military spending; and the role city leaders strive to play through the 2020 Vision Campaign of Mayors for Peace.
- 4) Strengthen and broaden strategic alliances with international NGOs.
- 5) Issue letters of request and/or statements calling for a world free from nuclear weapons to be sent to appropriate recipients at appropriate times and in effective ways.
- 6) Work with member cities, NGOs and concerned citizens in specific regions to develop effective means to influence their governments to work for the abolition of nuclear weapons, and to promote regional activities in support of concrete actions.
- 7) Create mayoral delegations and develop initiatives calling for the abolition of nuclear weapons at the Preparatory Committee Meetings in 2012, 2013 and 2014 and at the 2015 NPT Review Conference.
- 8) Identify celebrities and other opinion leaders who support the 2020 Vision and appointment to serve as 2020 Vision Ambassadors.

The 8th Executive Conference of Mayors for Peace

Resolution towards the Abolition of Nuclear Weapons

In August 1945, the first nuclear weapon used in combat was dropped on Hiroshima. Three days later, the second was dropped on Nagasaki. The resulting catastrophes in these two cities are indescribable. Even today, thousands of A-bomb survivors suffer physically, psychologically, and socially from aftereffects. Struggling to live difficult daily lives, they have, nevertheless, sought consistently and intensively to persuade the world to eliminate all nuclear weapons.

To pursue that goal, the cities of Hiroshima and Nagasaki established the World Conference of Mayors for Peace in 1982 to promote solidarity and cooperation among cities in arousing international demand for a peaceful world free from nuclear weapons. This network of cities has expanded worldwide, and in September 2011, our membership exceeded 5,000 cities in 151 countries and regions, and continues to grow rapidly.

Mayors for Peace is dedicated to protecting citizens from inhumane conditions created by armed conflicts, wars, and use of nuclear weapons.

In 2003, we launched an “Emergency Campaign to Ban Nuclear Weapons” that quickly became our “2020 Vision,” a program to eliminate all nuclear weapons by the year 2020. Working with other cities, concerned citizens, and NGOs around the world, we have launched a number of important initiatives. In the run-up to the 2010 NPT Review Conference, we promoted a grassroots petition drive derived from our Cities Are Not Targets! project (CANT). We also campaigned for adoption of the Hiroshima-Nagasaki Protocol, a concrete roadmap for the total abolition of nuclear weapons. Though the Protocol was not adopted, the Final Document did, for the first time, mention a nuclear weapons convention, which we consider an achievement for the 2020 Vision.

After the speech by U.S. President Obama in Prague in April 2009 calling for a “world without nuclear weapons,” and with the adoption of a Final Document agreeing on an action plan toward the abolition of nuclear weapons, global momentum appeared to be mounting. Since then, however, we have seen no significant progress. The U.S. and Russia concluded the New START Treaty, but the U.S. then conducted a new type of nuclear test, in addition to its subcritical testing. Such actions have cast a shadow over the movement toward nuclear abolition. In a time of unprecedented global economic crisis, a recent study has found that the nuclear weapon states plan to spend more than 1 Trillion U.S. dollars on nuclear weapons and related programs over the next decade. Meanwhile, mayors and cities are being forced to make deep cuts in vital public services and the Millennium Development Goals fall farther and farther behind.

Hunger, inequality and lack of opportunities endanger our world. We are particularly concerned that regional conflicts could lead to the use of nuclear weapons. We are aware that illegal trade in arms and drugs is fueling these conflicts. As Mayors for Peace, we need to demonstrate our clear determination to eliminate or bring these activities under strict control.

On March 11, 2011, the Great East Japan Earthquake caused a major accident and release of radiation from the Tokyo Electric Power Company’s Fukushima Daiichi Nuclear Power Station. The ongoing threat of radiation has generated tremendous anxiety among those living nearby and millions around the world. The issue of nuclear power has become a global public debate. Whether the source of radiation exposure is nuclear bombs, nuclear testing, or nuclear energy, we must do everything we can to prevent any more hibakusha anywhere. We must create a society that is supported by safer energy.

Today, the average age of the hibakusha is over 77 years. To honor their most cherished desire, we must achieve a nuclear-weapon free world at the earliest possible date. To this end, we believe it important for as many people as possible, especially policymakers from the nuclear-weapon states, to visit and experience first-hand the A-bombed cities, learn the horror of nuclear weapons, and discuss ways to free the human family from this threat. In addition, Mayors for Peace will promote the following actions to focus the energy and power of our entire membership in pursuit of the 2020 Vision.

- Develop a global grassroots petition drive conducted by all member cities calling for negotiations on a nuclear weapons convention, and submit those petitions to the most appropriate authorities.
 - Instill a sense of urgency and stimulate momentum toward convening a high-level meeting of governments and experts in Hiroshima concurrent with the 8th General Conference of Mayors for Peace in August 2013.
 - Commemorate the 5000-city milestone with a new poster exhibit to directly inform millions of citizens on the impact of nuclear attack on a city; the impact of nuclear war on catastrophic climate change resulting in global famine; the diversion of economic and human resources from urban, human needs to nuclear weapons and related military spending; and the role city leaders strive to play through the 2020 Vision Campaign of Mayors for Peace.
 - Strengthen and broaden strategic alliances with international NGOs.
 - Issue letters of request and/or statements calling for a world free from nuclear weapons to be sent to appropriate recipients at appropriate times and in effective ways.
 - Work with member cities, NGOs and concerned citizens in specific regions to develop effective means to influence their governments to work for the abolition of nuclear weapons, and to promote regional activities in support of concrete actions.
 - Create mayoral delegations and develop initiatives calling for the abolition of nuclear weapons at the Preparatory Committee Meetings in 2012, 2013 and 2014 and at the 2015 NPT Review Conference.
- The target year for conclusion of the nuclear weapons convention is 2015. To achieve this goal, we hereby demand that national governments take the following steps:

- 1) Pressure the nuclear-weapon states, including non-parties to the NPT, to immediately de-alert all nuclear weapons, cease all nuclear development and deployment programs, and commence concrete negotiations for a nuclear weapons convention.
- 2) Send disarmament ambassadors to join mayors, UN officials, parliamentarians and NGO representatives at the Mayors for Peace General Conference in Hiroshima in August 2013 to develop a clear roadmap that will lead us to a nuclear-weapon-free world by 2020.

We hereby declare our renewed determination to act on behalf of our citizens to free them from the threat of nuclear weapons. We advocate conflict resolution based on dialogue because without peace, there is no democracy. Without peace, there is no freedom. Without peace, there is no sustainable development.

November 10, 2011

The 8th Mayors for Peace Executive Conference

Please support our petition asking for a nuclear weapons convention!

In August 1945, atomic bombs dropped on Hiroshima and Nagasaki brought unspeakable tragedy to both cities. Many survivors still suffer the aftereffects, and yet nuclear weapons continue to threaten the very survival of human life on this planet.

To avoid any repetition of the tragedies of Hiroshima and Nagasaki, people around the world must work hand in hand to build a culturally rich, environmentally sustainable, safe and peaceful nuclear-weapon-free world.

<Mayors for Peace seeks the total abolition of nuclear weapons by 2020.>

Mayors for Peace was founded by the cities of Hiroshima and Nagasaki in 1982. As of February 1, 2012, we have 5,126 member cities in 153 countries and regions. Through intercity solidarity, we pursue a peaceful world without nuclear weapons.

One of our concrete actions is the 2020 Vision Campaign (an Emergency Campaign to Ban Nuclear Weapons), which seeks the total elimination of nuclear weapons by 2020. Our original CANT (Cities Are Not Targets) petition called for nuclear-armed states to stop targeting cities with nuclear weapons. Between 2007 and May 2010, with the help of thousands of peace-loving groups and individuals, we collected more than a million signatures, which we delivered to the UN Headquarters in New York. Now, we are promoting a new petition demanding the immediate commencement of negotiations for a nuclear weapons convention (NWC).

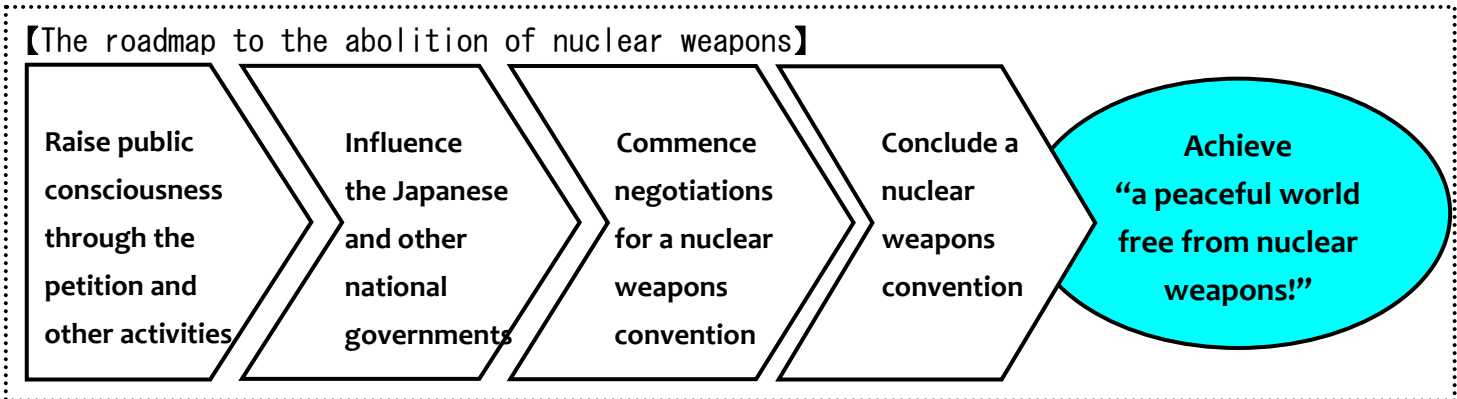

A GLOBAL MOVEMENT HAS BEGUN!

Mayors for Peace is helping to build the momentum.

Let's tell our leaders we want a nuclear weapons convention by 2015.

The most effective way to abolish all nuclear weapons by 2020 is a nuclear weapons convention. A nuclear weapons convention will prohibit the acquisition, development, possession, deployment and use of nuclear weapons and all related activities. This convention was mentioned in the Final Document of the 2010 NPT Review Conference for the first time and called for by Secretary-General Ban Ki-moon in his Five-Point Plan. Mayors for Peace will work with other civil society organizations to build momentum and urge Japan, the only A-bombed nation, to work with other nation states to quickly commence negotiations and conclude a nuclear weapons convention without further delay.

Please participate in this project by signing the petition below, then signing up your friends and neighbors. Mayors for Peace will deliver your signatures to the appropriate authorities. Let's tell our leaders that we expect them to sign a nuclear weapons convention that will lead us to a peaceful world that can never be destroyed by nuclear weapons.

Covenant of the Mayors for Peace

In August, 1945, the first nuclear weapons ever used in human history caused an indescribable catastrophe for the cities of Hiroshima and Nagasaki. Even now a number of A-bomb survivors are still suffering physically, psychologically, and socially from various after-effects. Nevertheless, nuclear weapons have not been abolished; they continue to threaten human existence. Our goal is to maintain environments that enable citizens to lead safe, cultural lives, and to contribute to the attainment of lasting world peace. To this end, we pledge to make every effort to create an inter-city solidarity transcending national boundaries and ideological differences in order to achieve the total abolition of nuclear weapons and avert the recurrence of the Hiroshima and Nagasaki tragedies.

We agree to the intent of the "Program to Promote Solidarity of Cities towards the Total Abolition of Nuclear Weapons" proposed by Hiroshima and Nagasaki.
