  3. The group discussion session
  4. The presentation session what the participants discussed with their group
     Question and answer session

- **Comments**
  - In the future, we will not be able to listen hibakusha testimony from hibakusha themselves. However, the people who have listened the testimony can convey it objectively because they have not experienced. If you are a hibakusha, you are not willing to tell the truth and facts.
  - Even if you are a Japanese, we have some different consciousness that we are a member of the atomic bombing country. Since Hiroshima is visited by many foreigners, we should visit Hiroshima as a Japanese.
  - I didn’t know that Korean people were discriminated by Japanese during the war.
  - We need to teach our students that we need to have a good relationship with other people and we need to be kind to people to keep peace.
  - In order to prevent the war from spreading, we should regularly teach about the disasters of peace and war.
