| Number of Attendants | Approximately 16 persons |

Summary of the meeting:
The meeting had three main parts: 1- Narration of Hiroshima disaster 2- Japanese culture 3- Nuclear weapons and the risk of Nuclear energy

In the first part, I explained about what happened in Hiroshima and the history of Hiroshima & Nagasaki bombing and the extensive effort to rebuild Hiroshima.
Second part was about what I saw in Japan and the different aspect of Japanese culture that I have chance to observe. And also the precise experience of home stay.
Third part, the most important one, was about the fact of the disaster that the nuclear weapons can cause and the risk of nuclear energy for future generations and as a new example, Fukushima was investigated.
In this part, I also explained the structure of nuclear energy and discussed about the Iran’s strategy for use of nuclear energy in future.

At the end of the discussion, we had consultation about my action plan for continues cooperation between Iranian secretariat of Mayors for Peace and the active cities.

Notes (related materials, links, etc.):
I used the material from the lectures that we had at Hiroshima City University and the 2020 Action plan of Mayors for Peace.
The photos in presentation were those that I took in Hiroshima.
