The Hiroshima-Nagasaki Peace Study Course

Basic Concepts and Content

Hiroshima Peace Culture Foundation

(http://www.mayorsforpeace.org/english/hnpc/hnpc_top.htm)
Basic Concepts and Content

1. What are the Hiroshima-Nagasaki Peace Study Courses?
With the atomic bomb survivors aging and peace consciousness fading among the young, communicating the atomic bomb experience to future generations is an urgent task. To help accomplish this, the cities of Hiroshima and Nagasaki and the Hiroshima Peace Culture Foundation are asking colleges and universities around the world to establish and promote Hiroshima-Nagasaki Peace Study Courses designed to analyze and disseminate lessons from the atomic bomb as common assets for humankind. By approaching the bombings through the humanities, social and physical sciences, and the full spectrum of academic disciplines, students receive factual information about the atomic bombings in Hiroshima and Nagasaki, and primary accounts of the misery of war, inhumane nature of nuclear weapons and preciousness of peace.

Currently, the Hiroshima-Nagasaki Peace Study Courses have been established at 75 universities (51 in Japan, 24 overseas).

For more details on the syllabi of the courses at each university and reports of their field work in Hiroshima, please visit the Hiroshima-Nagasaki Peace Study Course website at: http://www.mayorsforpeace.org/english/hnpc/hnpc_top.htm

The Hiroshima Peace Culture Foundation is designated to administrate the clerical works to establish and promote the Hiroshima-Nagasaki Peace Study Courses.

2. Course Criteria of a Hiroshima-Nagasaki Peace Study Course
(1) Course Classification
Hiroshima-Nagasaki Peace Study Courses can be core courses regularly offered on campus or composed solely of fieldwork in Hiroshima and/or Nagasaki. A recognized course can also be an integrated class consisting of a single core course and fieldwork. Whether newly established or previously existing, courses that fulfill the necessary criteria can be recognized as Hiroshima-Nagasaki Peace Study Courses.

(2) Course Criteria
The Course should fulfill all the conditions described below:
<Core Course>
(a) Deals with the basic facts of the atomic bombings in Hiroshima and Nagasaki and helps student understand the fundamental message of the atomic bomb survivors: “No one else should suffer the way we did.” Considers ways of achieving the total elimination of nuclear weapons and lasting world peace.
(b) Logically analyzes and organizes the atomic bomb experience in the context of an academic discipline, from the arts and humanities to social and natural sciences. (e.g. political science or architectonics).
(c) The course should be offered for at least one academic term each year.

<Fieldwork>
(a) Participants visit Hiroshima and/or Nagasaki, listen to atomic bomb survivor testimony, attend lectures by experts, and tour war and peace related facilities to learn about the content described in (a) and (b) of the <Core Course> section above.
Example fieldwork activities:
- Attending and listening to atomic bomb survivor testimonials
- A tour of peace memorial facilities, such as the Hiroshima Peace Memorial Museum
- Visiting various institutes such as the Radiation Effects Research Foundation
- Study the societal effects of the atomic bombing
- Study the medical effects of the atomic bombing
- Discussion on peace related issues
(b) Fieldwork should be part of an official university course that is offered regularly.
3. Hiroshima-Nagasaki Peace Study Course Accreditation Procedures

(1) Please submit the course syllabus with a completed application form to the Hiroshima Peace Culture Foundation.

(2) The Hiroshima Peace Culture Foundation will examine the syllabus and application. When the Foundation determines that the course meets the criteria of a Hiroshima-Nagasaki Peace Study Course, the course will be recognized as such and a notification of recognition will be sent to the parent institution.

(3) After recognition, the forms of support stated below in “4. Assistance to Universities Establishing Hiroshima-Nagasaki Peace Study Courses,” will be arranged.

4. Assistance to Universities Establishing Hiroshima-Nagasaki Peace Study Courses

To help establish Hiroshima-Nagasaki Peace Study Courses at universities around the world, the cities of Hiroshima and Nagasaki and the Hiroshima Peace Culture Foundation offer the following forms of support. The cost of this support will be covered for the first year following the course’s recognition as a Hiroshima-Nagasaki Peace Study Course.

(1) Provision of study materials

(2) Introduction of atomic bomb survivors and academics  
As a lecturer for the recognized course, introduce an atomic bomb survivor who offer testimony and researchers on the related field.  
(3) Arrangement of an atomic bomb survivor’s testimony via Skype  
As a part of the course curriculum, an atomic bomb survivor can offer their testimony to students via Skype.
(4) Assistance with fieldwork

The following forms of support are offered for fieldwork in Hiroshima and Nagasaki upon request.

(Please understand that in some cases it may not be possible to arrange schedule for your visit exactly as requested due to factors such as lecturer’s schedules.)

(Hiroshima)

・ Testimony by an atomic bomb survivor (Available in English)
・ Guest lectures by academics
・ Visit to atomic bomb related facilities such as Hiroshima Peace Memorial Museum, Hiroshima National Peace Memorial Hall for the Atomic Bomb Victims, Hiroshima Peace Memorial Park (Tours of the park by volunteers available in English)
・ Free admission to Hiroshima Peace Memorial Museum
・ Opportunities to discuss peace-related issues with academics and local youth

(Nagasaki)

・ Testimony by an atomic bomb survivor (Japanese only)
・ Visit to Nagasaki Atomic Bomb Museum, National Peace Memorial Hall for the Atomic Bomb Victims, Peace Park, atomic bomb hypocenter and other related sites (Tour guide by volunteers available in English)
・ Free admission fee to Nagasaki Atomic Bomb Museum
・ Opportunities to discuss peace-related issues with academics and local youth

(For Your Reference)

Hiroshima-Nagasaki Peace Study Courses Sample Curriculum

1. Peace study and peace research
Comprehensive review of the results of interdisciplinary research on nuclear issues, problems in research, and future directions.

-- Peace research today

-- Roles of the U.N., nations, cities, and individuals in devising and establishing peace policies
2. Political science
Study how the atomic bomb experiences of Hiroshima and Nagasaki have affected nuclear policy around the world.
-- Meaning of nuclear weapons in international politics; the nuclear arms race and nuclear disarmament
-- The U.S.-Japan Security Treaty and the nuclear umbrella

3. International law
Study the significance of the advisory opinion handed down by the International Court of Justice and the Treaty on the Prohibition of Nuclear Weapons, and how to maximize their influence.
-- The significance of the advisory opinion of the International Court of Justice
-- The analysis of the Treaty on the Prohibition of Nuclear Weapons and future development
-- The validity of international law and limits of application

4. Philosophy
Examination of human dignity, life and death, hatred and reconciliation, and related themes, primarily with respect to the lives of the hibakusha.
-- The meaning of the lives of the hibakusha
-- The meaning of “Hiroshima” in peace declarations over the years

5. Sociology
Starting with the activities of the hibakusha since the end of the WWII, examine the effectiveness of and problems with various social movements concerned with nuclear issues. Examine the role of NGOs in the anti-nuclear and peace movements.
-- The nuclear weapon abolition movement and roles played by the hibakusha
-- Nuclear weapons and the environmental movement

6. History
The history of the development of the atomic bomb, from conceptualization to use in combat; differences in how different people perceive the dropping of the atomic bomb.
-- Study of the process leading to the dropping of the bomb and views over time on whether or not the bomb was justified
7. Psychology
Study of the psychological effects of dropping the bomb on the *hibakusha* and on people around the world; military technology and psychology; psychological approaches to moving from the culture of violence to the culture of peace.
-- The psychological effects of dropping the atomic bomb
-- Going beyond nuclear deterrence, MAD (mutually assured destruction) theory, and tit for tat.

8. Education
Examination of the status of peace education and its problems in Japan and other countries in the world; examination of understandings of “Hiroshima” and “Nagasaki” and how they have been handled in peace education to date.
-- The status of peace education at each level (elementary, junior high, and high school education)
-- Examination of ways “Hiroshima and Nagasaki” have been handled in peace education to date

9. Literature and art
Using novels, journals, films, and paintings as subject matter, systematic examination of A-bomb literature and other examples of works of art that reveal how art culture has related to the atomic bombing.
-- “Hiroshima and Nagasaki” in culture and art

10. Physics, urban engineering and construction engineering
Analysis of the power of the atomic bomb and the actual damage it inflicted; simulations of the effects of using nuclear weapons in various situations and places.
-- Quantitative analysis and study of the damage done by the atomic bombings
-- Simulations of damage done by nuclear weapons

11. Medical science
Examination of the medical effects on human bodies by the atomic bombing, the status of medical care for victims of radiation exposure.
-- Medical effects of the atomic bombings
-- Medical care for victims of radiation exposure

12. Scientific technology and nature; scientific technology and society
Re-examination of the relationships between humans, nature and scientific technology from the standpoint that nuclear weapons are an absolute evil; establishment of guidelines for using scientific technology only for the true benefit of humanity; probing policies on scientific technology and industry.
-- The status of weapons of mass destruction and the issues therein
-- How to bring scientific technology into harmony with nature
We hereby apply for the recognition of the following course as a Hiroshima-Nagasaki Peace Study Course.
