

Mayors for Peace stands with the city of Barcelona and sends its deepest solidarity to the victims

Catalan municipalities call the citizens to join together at noon to keep 5 minutes of silence to pay tribute to the victims and to show their commitment with a pacific coexistence.

The Catalan network of Mayors for Peace @alcaldespau issued a statement to send its sympathy and join in solidarity with the city of Barcelona, member of Mayors for Peace, after a terrorist attack killed 13 people and injured more than one hundred people, on the afternoon of yesterday, August 17th.

Among the victims there are citizens coming from all around the world, and they are receiving the support and the solidarity from Barcelona's people.

By attacking cities in such an indiscriminate way, the aim is to harm innocent people. It is an attack on all of those who want to see a more peaceful world. As lady Mayor Ada Colau stated, "Barcelona is brave and united. Terror will never change that".

Today, Friday 18th, at noon, the citizens of most of the Catalan municipalities will join together to keep 5 minutes of silence to condemn the attack and to show solidarity with the victims.

We stand together for peace and an end to violence in all its many forms.
