Something I had to do

Something I was  
inclined to do

What can I do?

Just a Story

# Essential Things

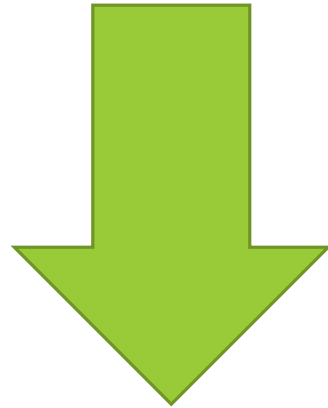

---

**Listen to the stories  
from Hibakusha**

---

Hibakusha's average age is over 80.

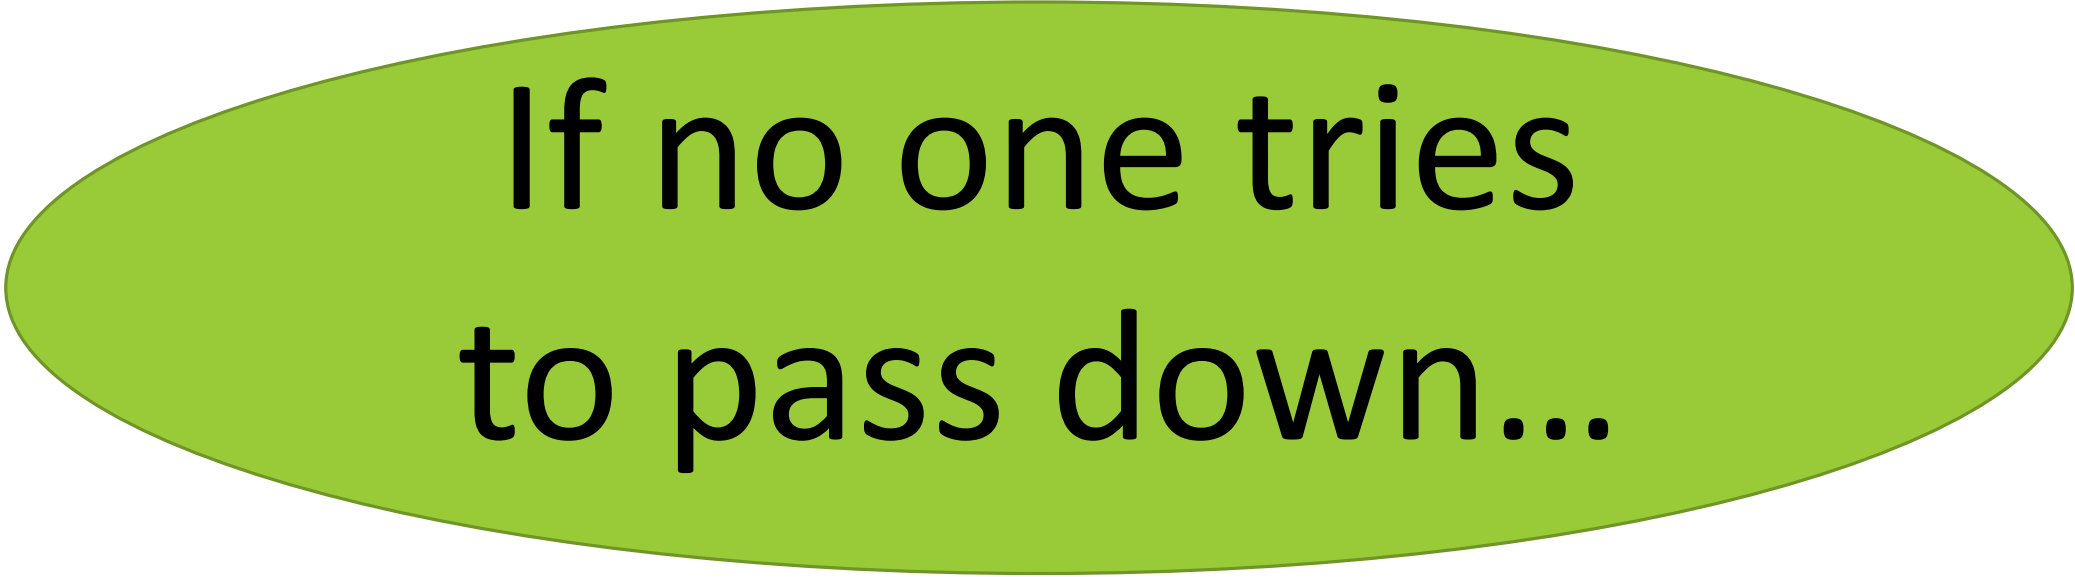

A few decades  
from now

We won't be able to listen to stories  
from Hibakusha.

---

If no one tries  
to pass down...

What should we do  
now?

## *“Tsutaeru Hiroshima Project”*

- Listened to Hibakusha
- Discussed our nuclear abolition views
- Made a speech toward the Ambassadors in Japan

Found the importance  
of young people's  
nuclear abolishing activities

- Listen to Hibakusha directly
- Tell our thought
- Act toward peace

Those are all the things that matters

---

We have one request

---

Please send youths from your country  
to Hiroshima

Abolishment of nuclear weapons  
will...

Not just be any dream

Abolishment of nuclear weapons  
will...

be  
Our dream for the future
