However, the people who have listened the testimony can convey it objectively because they have not experienced. If you are a hibakusha, you are not willing to tell the truth and facts.</li> <li>• Even if you are a Japanese, we have some different consciousness that we are a member of the atomic bombing country. Since Hiroshima is visited by many foreigners, we should visit Hiroshima as a Japanese.</li> <li>• I didn't know that Korean people were discriminated by Japanese during the war.</li> <li>• We need to teach our students that we need to have a good relationship with other people and we need to be kind to people to keep peace.</li> <li>• In order to prevent the war from spreading, we should regularly teach about the disasters of peace and war.</li> </ul>
