(Translation of Peace City Declaration)

It is declared that Taito City is Peace City as follows.

Lasting peace of the world is a wish of all mankind.

It's the obligation for us now to **abolish nuclear weapons**, protect the global environment and take over peaceful society to the next generation.

We appeal worldwide the significance of the nobility of peace as **only people in a nation which experienced nuclear bombs** to long for the actualization of society which all mankind are able to enjoy the right to pursuit happiness.

We administer an oath that we make an effort for the lasting peace in the Constitution's philosophy in the 50<sup>th</sup> anniversary of the end of the War.
