On October 19 and 20, Mayors for Peace held its 10th General Conference in Hiroshima with the keynote theme of “Creating a Peaceful, Nuclear-Weapon-Free World: Cultivating a Culture of Peace in Civil Society.”

Opening remarks by President Matsui
(Opening Ceremony)

Adoption of the Hiroshima Appeal
(Closing Ceremony)

The General Conference decided to establish the Mayors for Peace Supporter System and adopted the Hiroshima Appeal commemorating the 40th anniversary of the establishment of Mayors for Peace. The Mayors for Peace Supporter System aims to intensively engage the younger generation to build a consensus in civil society in favor of the realization of a peaceful, nuclear-weapon-free world, which will urge policymakers to effect policy change. The Hiroshima Appeal declares that Mayors for Peace will work even harder to promote the deep-rooted culture of peace in civil society by means such as fostering youth leadership, and appeals to the UN and all national governments to take six actions to lower rising international tension and reduce the risk of the use of nuclear weapons.

Panel Discussion with former UN Under-Secretary-General Chowdhury (second from right)

Presentation by youth engaging in peace activities
(Session III)

The Conference was visited by Ambassador Anwarul K. Chowdhury, the former Under-Secretary-General and High Representative of the UN, who has been advocating and promoting the “Culture of Peace.” Ambassador Chowdhury delivered the Commemorative Lecture, titled, “Advancing the Culture of Peace to Create a Better World with Communities at the Center,” followed by a panel discussion with the Mayors of Hiroshima and Nagasaki. In the sessions under the themes of “The Role of Member Cities” and “The Role of Young People as Successors of the Will of the *Hibakusha*,” member city representatives and youth engaging in peace activities shared many good examples of various initiatives.

The 10th Mayors for Peace Japanese Member Cities Meeting was also held during the Conference. At the Meeting, the Mayor of the City of Himeji (Hyogo Prefecture), the host city of the 11th Japanese Member Cities Meeting to be held next year, gave remarks, and the Meeting adopted a letter of request to the Japanese Government calling for the promotion of actions to abolish nuclear weapons, as well as the Meeting’s summary notes.

The Hiroshima Appeal

The Hiroshima Appeal

Commemorating the 40th Anniversary of the Establishment of Mayors for Peace

On the occasion of its 10th General Conference on October 19-20, 2022, we, representatives of Mayors for Peace member cities, engaged in dynamic discussions on the theme “Creating a Peaceful, Nuclear-Weapon-Free World: Cultivating a Culture of Peace in Civil Society,” an event that also commemorated the 40th anniversary of the establishment of Mayors for Peace.

In August 1945, atomic bombs were dropped on Hiroshima and Nagasaki, and the lives of over 210,000 people were ruthlessly stolen by the end of that year. Those who barely managed to survive were left with deep psychological and physical wounds that have yet to heal even today, 77 years later.

In June 1982, during the 2nd UN Special Session on Disarmament, then-Mayor Araki of Hiroshima established Mayors for Peace, calling on the cities of the world to transcend national borders and join in solidarity to forge a path toward the abolition of nuclear weapons. Since then we have made steady progress on our path, and in our 40th year, membership in our non-partisan international NGO has now grown to 8,213 member cities in 166 countries and regions around the world.

In addition to our long-standing objectives to forge a path toward our goal of realizing lasting world peace, namely, *Realize a world without nuclear weapons* and *Realize safe and resilient cities*, in July 2021, we added a third objective, *Promote the culture of peace*, when we adopted the *Vision for Peaceful Transformation to a Sustainable World (PX Vision for short)*.

The first objective, *Realize a world without nuclear weapons*, has been set forth with the intention of striving for the total global abolition and elimination of nuclear weapons as cities and their citizens remain their targets and taking into consideration the catastrophic environmental and economic consequences on a global scale of the use of those weapons.

The second objective, *Realize safe and resilient cities*, means that we recognize that certain global trends in international security, the environment, development, poverty, and the economy have profound effects upon cities everywhere and, if unaddressed, threaten the peaceful coexistence—if not the very existence—of the human race. To meet these challenges, we resolve to advance basic human needs and sustainable development.

To accomplish these objectives, it is imperative to cultivate peace consciousness and cause the culture of peace to take root in civil society. To that end, we have newly included *Promote the culture of peace* as our third objective.

The Hiroshima Appeal

Since the Russian attack against Ukraine, this armed conflict has led to a deterioration of international peace and security, jeopardizing the shared values of international society. The world has witnessed new threats to use nuclear weapons in this armed conflict, raising the risk of nuclear war to the highest level. In addition, the dangerous theory of nuclear deterrence, which attempts to justify the existence of such weapons, has gained further momentum. Moreover, possessor states continue to modernize their nuclear forces, diverting vast economic and technical resources away from meeting the pressing needs of sustainable development everywhere.

Amid such circumstances, at the First Meeting of States Parties to the Treaty on the Prohibition of Nuclear Weapons (TPNW) held in June, the Vienna Declaration and Vienna Action Plan were adopted. These documents reaffirm the inhumanity of nuclear weapons, unequivocally condemn any threat of use of such weapons, and call for an increase in the number of ratifying states, as well as improvement and enrichment of victim assistance provision. Above all else, we heartily welcome that these documents reaffirm the compatibility and complementarity of the TPNW with the Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

In contrast, at the 10th NPT Review Conference held in August, negotiations broke down, with many non-nuclear-weapon states taking note of the failure of the nuclear-weapon states to meet their disarmament obligations. The Conference came to an end, failing to reach an agreement to adopt the draft of the Final Document, which stated that a recognition of the inhumane consequences of the use of nuclear weapons must be the foundation for nuclear disarmament. This negative outcome only serves to further hinder progress toward nuclear disarmament and rejects the *hibakusha*'s wish for the abolition of nuclear weapons.

Despite 40 years of persistent appeal by Mayors for Peace to pave the way toward the total elimination of nuclear weapons, we have still yet to see the formation of a solid international public opinion that will lead to realizing a peaceful world free of nuclear weapons. It is our unshakable conviction that the only absolute viable measure for humanity to take against repeated threats of nuclear weapons is their total elimination. Given this, Mayors for Peace will prompt the UN and national governments, especially nuclear-armed states and their allies, to take immediate action and urge policymakers to effect policy changes for the abolition of nuclear weapons.

In doing so, however, while making efforts to lead the will of the public is one possible approach, we believe it is of the utmost importance rather to engage members of civil society, especially the younger generation—the driving force of the future. We will strive to create an environment in which they, in deep recognition of the catastrophic humanitarian consequences of the use of nuclear weapons, raise peace awareness and prompt leaders to correct their policies in order to abolish nuclear weapons. To that end, we will work even harder to promote a deep-rooted culture of peace in civil society by means such as fostering youth leadership for future peace activities.

The Hiroshima Appeal

In response to the unfolding international situation, we hereby strongly appeal to the UN and all national governments to take the following actions at present to lower rising international tension and reduce the risk of the use of nuclear weapons:

- Share in the *hibakusha*'s earnest wish for peace and work for nuclear disarmament that will encompass the swift global abolition and elimination of all nuclear weapons. We especially appeal to nuclear-weapon states to take immediate action to fulfill and complete their NPT obligations, as well as agreements in the past Review Conferences.
- Break away from the theory of nuclear deterrence, ratify the TPNW, and increase efforts to pursue the total elimination of nuclear weapons, and progress on general and complete disarmament.
- Bring “Disarmament and Cities” forward as a topic for discussion at the UN General Assembly, since cities and their citizens must never again be targets of nuclear weapons.
- Visit the atomic-bombed cities of Hiroshima and Nagasaki and promote initiatives to convey to the world the realities of atomic bombings to make the experience of the atomic bombings a shared global experience as we approach the time when there will no longer be any *hibakusha*.
- Work to solve the diverse range of issues that threaten the peaceful coexistence between the whole of humanity to ensure the safety and security of our fellow citizens.
- Support all measures through education, advocacy, and international cooperation that contribute to the *promotion of the culture of peace*, including youth education on disarmament and non-proliferation.

With this Appeal, we reaffirm and strengthen our common commitment to achieve our agreed goals in the service of world peace and the security and prosperity of future generations.

In commemoration of the 40th anniversary of the establishment of Mayors for Peace, we hereby pledge to further strengthen our solidarity and continue our utmost efforts to promote peacebuilding by cities under three objectives in the *PX Vision*, following our Action Plan for up until the year 2025.

 - Video Message: António GUTERRES, United Nations Secretary-General

The General Conference opened with a video commemorating the 40th anniversary of the establishment of Mayors for Peace and reflecting on its 40 years of progress.

In his opening remarks at the Opening Ceremony, President Matsui, Mayor of Hiroshima, stated that war and peace are huge contradictions that humanity is faced with, and that we must encourage policymakers to effect changes in their policies toward the realization of a peaceful world free from nuclear weapons and focus even more on cultivating the culture of peace with the momentum gained from the G7 summit to be held in Hiroshima next year (2023).

A video message of support for the Conference from United Nations Secretary-General Guterres was played. Secretary-General Guterres called to together make the elimination of nuclear weapons happen, stating that nuclear risks are accelerating but we cannot give up, and that eliminating nuclear weapons would be the greatest gift we could bestow on future generations.

Hibakusha Testimony

Speaker KAJIMOTO Yoshiko, Atomic Bomb Survivor

Ms. Kajimoto was exposed to the atomic bomb when she was 14 years old, a third grader of the then-called Higher School for girls. At the moment of the explosion, she was in a factory which was 2.3 km away from the hypocenter, and in which students were mobilized to manufacture parts for airplane propellers. She began giving testimonies at the Hiroshima Peace Memorial Museum in 2000 and since then she has been actively sharing her experiences at schools, museums and local governments both in Japan and abroad including USA, Spain, and France. When the Pope visited Hiroshima in 2019, she shared her experience of the bombing with him.

Ms. Kajimoto testified that a boy came toward her with his torn arm and died in front of her, and that she will never forget the scared look on the boy's face. One person's strength may be small, but with a collective power of all who seek peace, bolstered by the spirit of the departed *hibakusha*, she is convinced that the total elimination of nuclear weapons can definitely be accomplished, she stated, expressing her conviction to communicate the realities of the atomic bombing to as many people as possible.

Session I: Deliberation and Decision of the Agenda

Proceedings Deliberation and decision of the agenda
Agenda Item 1: Election of Executive Officials
Agenda Item 2: Establishment of the Mayors for Peace Supporter System

Chairperson MATSUI Kazumi, Mayor of Hiroshima

The Conference deliberated over two agenda items—“Election of Executive Officials” and “Establishment of the Mayors for Peace Supporter System”—and adopted them as originally proposed.

The Conference decided to establish the Mayors for Peace Supporter System to build a consensus in civil society in favor of the realization of a peaceful, nuclear-weapon-free world, which will urge policymakers to effect policy change. It aims to gain a greater number of supporters for Mayors for Peace: individuals and groups who share in its principle and initiatives. In carrying out the Supporter System, Mayors for Peace strives to foster youth leadership for future peace activities and to attract and engage the younger generation in its intensive efforts. Its goal is to acquire supporters, involve them in sharing and spreading information via social media, and create a virtuous circle of promotion for a culture of peace.

Moderator	Thomas HAJNOCZI, Executive Advisor of Mayors for Peace

Through the presentations by member cities, the Conference participants discussed member city roles and engagement in creating a peaceful future free of nuclear weapons, given the current global situation.

The following presentations were given by the speakers: Mayor Barnusell of Granollers on the European Chapter’s initiatives aimed at winning additional states parties to the Treaty on the Prohibition of Nuclear Weapons (TPNW); Ms. Hassan-Cournol, City Councillor of Montreal, on the city’s immigration policy promoting inclusion; Mayor Onay of Hannover on the German Chapter’s efforts to further expand the membership; Mayor Nagami of Kunitachi on the city’s leadership to newly establish a network of member cities to promote the culture of peace; respectively.

Presentations on activities

During the exchange of ideas, some suggestions, including sharing about efforts taken to conduct peace education, were proposed from the floor. A comment on the growing importance of the TPNW and nuclear weapons abolition was also made. Executive Advisor Hajnoczi summarized that many great examples were shared during the session. He also reaffirmed the role of member cities to practice what we learned from each other.

Commemorative Lecture:

“Advancing the Culture of Peace to Create a Better World with Communities at the Center”

Keynote speaker

Ambassador Anwarul K. CHOWDHURY, Former Under-Secretary-General and High Representative of the UN

Ambassador Chowdhury has been a career diplomat, Permanent Representative of Bangladesh to the United Nations, President of the UN Security Council, President of UNICEF Executive Board, UN Under-Secretary-General and Senior Special Advisor to UN General Assembly President. He is an advocator of the “Culture of Peace” and he is the recipient of many brilliant awards related to sustainable peace and development, including the U Thant Peace Award.

His legacy and leadership in the service of global community are boldly imprinted in his pioneering initiatives for adoption of the landmark “Declaration and Programme of Action on a Culture of Peace” at the UN General Assembly in 1999 and the groundbreaking “UN Security Council Resolution 1325 on woman and peace and security” in 2000.

He is the Founder of New York-based civil society coalition advocating and networking to build and promote the Culture of Peace at the civilian level, The Global Movement for the Culture of Peace.

Former Under-Secretary-General Chowdhury stated that real peace means the end of discrimination, prejudice, injustice, and inequality, and peace and equality are the driving force for human development.

Touching on what triggered him to have passion for and faith in promoting the culture of peace, he recalled that his experience as a diplomat during the time of the war of independence for Bangladesh in 1971 had inspired him to take the lead in promoting the culture of peace at the UN level since 1999.

Each and every individual is important to securing the culture of peace in our world, he stressed, accentuating the special importance of peace education and women’s participation in promoting the culture of peace.

He concluded his lecture by calling for the participants to advance the culture of peace together, with words of encouragement stating that cities have the potential to shape the future of humankind and to achieve sustainable peace and development for a better world.

Panel Discussion: “Localizing the Culture of Peace for Greater Impact”

Panelists

- Ambassador Anwarul K. CHOWDHURY, Former Under-Secretary-General of the UN
- MATSUI Kazumi, Mayor of Hiroshima
- TAUE Tomihisa, Mayor of Nagasaki

Moderator KOIZUMI Takashi, Secretary General of Mayors for Peace

President Matsui shared his opinion that when people demonstrate their ability to be compassionate to others—people in both in-groups and out-groups—they could coexist peacefully and maintain good relationships.

Vice President Taue compared ways of thinking and rules to computer operating systems, and peacebuilding by our own to applications, and stated we must rewrite the old OS to a new one to be compatible with new apps.

Panel discussion

Former Under-Secretary-General Chowdhury mentioned the importance of promoting gender equality at the UN level, stressing that the UN must appoint a female Secretary-General. One of the participants from the floor responded that we must set good examples for producing women leaders.

In response to the comment from the floor that how the definition of the word “peace” may change over time, President Matsui stated that the state of peace, long thought to be bringing about a cease-fire on armed conflicts, is but a definition that has barely scratched the surface of a complex issue. Former Under-Secretary-General Chowdhury had also stressed the importance of respecting people’s differences.

In addition, Vice President Taue called for people to make the “culture of peace,” one that seeks to resolve matters through dialogue, our motto and further promote it, instead of the “culture of war” which seeks to resolve matters through armed forces.

Moderator	NABARA Shiho, A-bomb Legacy Successor

Through the presentations by youth engaging in peace activities and member cities that conduct peace activities together with youth, the Conference participants discussed the role of youth as successors of the will of the *hibakusha*, as well as ways to foster youth leadership for future peace activities as outlined in the Mayors for Peace Action Plan.

State Minister Takei for Foreign Affairs of Japan remarked that communicating the realities of the atomic bombings is Japan’s mission to accomplish; the government will invite youth from around the world to the atomic-bombed cities and further deepen the collaboration with Mayors for Peace to boost momentum for nuclear disarmament.

Presentations on activities

After which, the following presentations were given by the speakers: Ms. Suenaga of the Youth Peace Volunteers on their activities communicating the will of Hiroshima to foreign visitors to the Peace Memorial Park through guided tours; Ms. Nakamura representing KNOW NUKES TOKYO on their activities in connection with the Treaty on the Prohibition of Nuclear Weapons as well as fundraising; Vice-Mayor Varela of Evora on the city’s peace education efforts through creating artworks on the theme of peace; respectively.

During the exchange of ideas, some initiatives were introduced from the floor, such as participating in Peace Memorial Ceremonies and peace education at a historical site where a peace museum will be built. A suggestion was also proposed to make use of the 2025 World Exposition in Osaka as a platform.

Ms. Nabara, the moderator, summarized that the session was full of creative insights that may allow wider propagation of youth peacebuilding activities.

Chairperson	MATSUI Kazumi, Mayor of Hiroshima

The Secretariat reported on the membership fee financial statement for Fiscal Year 2021, as well as the host city for the 11th Mayors for Peace Japanese Member Cities Meeting. It was followed by remarks given by Mayor Kiyomoto of Himeji, host city of the next Japanese Member Cities Meeting.

The Conference deliberated over two agenda items—“Letter of Request to the Japanese Government Calling for the Promotion of Actions to Abolish Nuclear Weapons” and “Summary Notes of the 10th Mayors for Peace Japanese Member Cities Meeting”—and adopted them as originally proposed.

A suggestion from the floor to demonstrate the solidarity of Japanese member cities in response to the Russian attack against Ukraine was proposed. The Conference decided to continue examining the appropriate timing and type of action to be taken. The Conference also decided to submit the letter to the Japanese government at a later date.

- Adoption of the Hiroshima Appeal commemorating the 40th Anniversary of the Establishment of Mayors for Peace
 - Closing remarks: TAUE Tomihisa, Mayor of Nagasaki

President Matsui read out the draft text of the Hiroshima Appeal commemorating the 40th Anniversary of the Establishment of Mayors for Peace that declares Mayors for Peace will work even harder to promote the deep-rooted culture of peace in civil society by means such as fostering youth leadership, and appeals to the UN and all national governments to take six actions to lower rising international tension and reduce the risk of the use of nuclear weapons. The Conference deliberated over the Appeal and adopted it as originally proposed.

Adoption of the Hiroshima Appeal

In his closing remarks, Vice President Taue mentioned that the 11th General Conference will be held in Nagasaki in 2025. He expressed his hopes for the Mayors for Peace network to together make steady steps toward our goal of realizing a peaceful, nuclear-weapon-free world while sharing the principle of the PX Vision, and to make the next General Conference, in three years from now, a great opportunity to give good reports.

The Hiroshima Appeal was sent to the UN Secretary-General and missions of national governments to the UN in early November.

◆Exhibition of the “Drawing the Atomic Bombing with the Next Generation” project

An exhibition featuring drawings of the atomic bombing by students in the special creative expression course at the Hiroshima Municipal Motomachi Senior High School was held. The students created these works by listening to the *hibakusha*'s testimonies several times and constantly receiving feedback regarding the compositions and color during the creative process from the *hibakusha* themselves. This project aims to leave behind drawings that communicate the realities of the atomic bombing to future generations, as well as to encourage students to inherit the *hibakusha*'s wish for peace and think about the importance of peace through the creative process.

Agenda Item 2

Establishment of the Mayors for Peace Supporter System

1 Concept

As we, Mayors for Peace, commemorate our 40th anniversary this year, our steadily expanding global network has now grown to 8,213 member cities in 166 countries and regions around the world. Our forthcoming challenge under the *Vision for Peaceful Transformation to a Sustainable World (PX Vision for short)* is to create an environment that stimulates policymakers to effect policy changes for the abolition of nuclear weapons. As it is crucial that we cultivate peace consciousness that causes a culture of peace to take root in civil society to accomplish the aforementioned goal, it is more necessary than ever that we undertake efforts to further *Practice public relations aimed at gaining a greater number of supporters* — one of the initiatives set forth in the *Mayors for Peace Action Plan (2021-2025)*.

Recognizing this, Mayors for Peace will implement the following measures to gain a greater number of supporters and increase the visibility of our activities:

2 Establishing the Mayors for Peace Supporter System

1) Outline of the system

We seek to build a consensus in civil society in favor of the realization of a peaceful, nuclear-weapon-free world, which will establish a concrete base that urges policymakers to effect policy change. To that end, we will establish the Mayors for Peace Supporter System aimed at gaining a greater number of supporters for Mayors for Peace: individuals and groups who share in its principle and initiatives.

In carrying out the Supporter System, we aim to foster youth leadership for future peace activities as outlined in the *Action Plan*. In our intensive efforts to attract and engage the younger generation, we will share information on activities that promote a culture of peace, including our own, as well as those practiced by citizens who show their support for peace in their daily lives through art and sporting events, among others, in an accessible and approachable manner via social media (especially on Instagram, as it is notably popular among younger users). Our goal is to acquire supporters, involve them in sharing and spreading information, and create a virtuous circle of promotion for a culture of peace.

The Secretariat will manage the above-proposed Supporter System with support from our member cities.

2) Launch FY 2023

Conference Documents (Session IV)

議案 1

内閣総理大臣 岸田 文雄 様

核兵器廃絶に向けた取組の推進について（要請）

今年で設立40周年を迎えた平和首長会議は、被爆により筆舌に尽くしがたい経験を、生涯に渡る放射線障害等に苦しみながらも、「こんな思いを他の誰にもさせてはならない」と核兵器の非人道性を世界に訴え続ける被爆者の思いを次の世代に受け継いでいくため、核兵器廃絶と世界恒久平和の実現に向けた取組を行っています。

こうした取組を進める中で、平和首長会議の加盟都市数は増加の一途をたどり、現在世界166か国・地域の8,213都市が加盟し、そのうち日本国内の加盟都市は全市区町村の99.8%に当たる1,737都市に及んでいます。こうした中、第10回目となる平和首長会議国内加盟都市会議総会を10月20日に広島市で開催しました。

核兵器をめぐるのは、被爆者や市民社会の願いや行動が国際社会を動かし昨年1月に発効した核兵器禁止条約の第1回締約国会議が本年6月に開催され、核兵器のない世界の実現に向けて、国際社会が具体的な第一歩を踏み出せたことを歓迎します。

一方で、本年8月に開催された第10回NPT再検討会議では、緊迫したウクライナ情勢を背景にロシアと欧米諸国の対立が際立ち、前回に続いて交渉が決裂したことは、核兵器のない世界の実現を願う被爆者の願いを断ち切るものです。

このように、国家としての利益追求が、国際的な枠組みの尊重よりも優先される現状を打開していくためには、国家の安全保障から人間の安全保障を根拠とした核兵器に依存しない政策へと転換できるような社会環境を醸成していく必要があると考えています。そのために、平和首長会議では、市民社会の立場からあらゆる暴力を否定する「平和文化」を振興し、市民社会に根付かせることで、為政者が核抑止力に依存することなく、対話を通じた外交政策を目指す環境づくりを推進する取組を進めていきます。

唯一の戦争被爆国である日本政府には、平均年齢が84歳を超えた被爆者の核兵器のない世界の実現という切なる願いを真摯に受け止め、核保有国と非核保有国との分断を解消し、核兵器廃絶に向けた議論の共通の基盤を形成するための役割をしっかりと果たしていただくよう要請します。あわせて、来年11月に開催が予定される核兵器禁止条約第2回締約国会議にオブザーバー参加し、非核保有国の声も受け止めた上で、核兵器廃絶のために力を尽くしていただくとともに、一刻も早く核兵器禁止条約に署名・批准していただくよう強く要請いたします。

第10回平和首長会議国内加盟都市会議総会総括文書

平和首長会議は、昭和57年（1982年）の設立以来、世界の都市と連帯し、核兵器廃絶と世界恒久平和の実現を訴え続けてきた。平和首長会議には、現在世界の166の国・地域から8,213の都市が加盟しており、その数は増加の一途をたどっている。そのうち、日本国内の加盟都市は全市区町村の99.8%に当たる1,737に及んでおり、第10回目となる平和首長会議国内加盟都市会議総会を令和4年（2022年）10月20日に広島市で開催した。

最初に、次の事項について事務局から報告を行った。

- ① 平和首長会議メンバーシップ納付金令和3年度決算について
- ② 第11回平和首長会議国内加盟都市会議総会の開催地について

続いて、日本政府に対する核兵器廃絶に向けた取組の推進についての要請文について審議・決定した。

最後に、私たちは、核兵器を廃絶し、戦争のない平和な世界を実現するため、加盟都市を着実に拡大し、共に行動していくことをここに宣言する。
